Professional Summary

Experienced Software Engineer with over 6 years of expertise in developing scalable backend solutions using Node.js and C#. Proficient in building RESTful APIs, microservices, and cloud-based architectures utilizing AWS and Azure. Adept at collaborating within Agile teams to deliver high-quality software solutions while integrating emerging technologies like WebRTC and AI APIs.

Work Experience

Web Assets Manager / Fullstack Developer

Wigwe University | Isiokpo | 2025

- Manage/maintain the School student portals
- Design and lead the development of in-house ERP for the university.
- Manage the university website.
- Engage and liaise with third party IT companies for software needs that will be outsourced.
- Initiate and coordinate training for staff and students on software usage and other relevant IT topics.

Tech Stacks: Angular, C#, Sql Server, Azure Stack

Software/WebRTC Developer

Zarttech | Remote | 02/2023 – Present

- Designed and implemented a real-time event management backend and frontend for Eventglo, facilitating 1,000+ live users. [Eventglo](https://app.eventglo.io)
- Developed a distributed chat service for the JobPro suite, supporting 10,000+ concurrent users with features like chat, file sharing, and AI-driven chatbots. [JobPro](#)
- Integrated ChatGPT API to enhance the chat service with advanced bot capabilities.

Tech Stack: [Node.js](#), [Nest.js](#), Typescript/Javascript, Angular, AWS Cloud, GCP, WebRTC, Socket.io

Lead Developer

EasyLabs | Remote | 06/2022 – Present

- Translated business needs into scalable backend APIs and data models, improving system performance by 25%.

- Led the development of e-learning and productivity tools, ensuring on-time delivery of technical requirements.

Tech Stack: [Node.js](#), Typescript/JavaScript, Angular, MongoDB, Render Cloud, Socket.io

Node.js Developer

MentorMate | Remote (Bulgaria) | 01/2022 – 06/2022

- Built and deployed Azure functions to interact with IoT devices using TypeScript and Node.js, optimizing device communication efficiency.

Tech Stack: [Node.js](#), TypeScript, Azure Function, Azure cloud, Sql Server

Full Stack Software Developer

M-R International | Port Harcourt | 11/2018 – 01/2022

- Designed and implemented RESTful APIs and GraphQL endpoints for client applications, reducing API response time by 30%.
- Led a team of 4 engineers to build a Learning Management System (LMS) with virtual classroom features, supporting 5,000+ active users.

Tech Stack: C#, [ASP.Net](#) Core, Angular, [knockout.js](#), Typescript, Sql server, MongoDB, [Socket.io](#), Signal R

Technical Skills

- **Backend Technologies:** Node.js, C#, TypeScript, GraphQL, NestJS
 - **Frontend Technologies:** Angular, React, HTML/CSS, Flutter
 - **Databases:** MongoDB, SQL, Azure Cosmos DB
 - **DevOps Tools:** Docker, Kubernetes, Jenkins, CI/CD Pipelines
 - **Cloud Platforms:** AWS, Azure, Google Cloud Platform
 - **Others:** WebRTC, Rust, RESTful APIs, Microservices Architecture
-

Education

Higher National Diploma (HND) in Computer Science

Imo State Polytechnic, Umuagwo | 08/2012 – 08/2016 | CGPA: 4.46

National Diploma in Software Engineering

Buckingham Academy of Management and Technology | 08/2011 – 08/2013

Personal Projects

- **EasyMeet** (06/2021 – Present): A video conferencing platform built with WebRTC, Node.js, Socket.io, MongoDB, and Angular, featuring screen sharing, recording, and moderation tools. [Live Demo](#)
 - **Awesome Recorder** (12/2022 – Present): A screen recorder designed for tutorial and marketing videos, supporting webcam integration. Created to aid software development mentoring sessions. [Live Demo](#)
 - **Bloggy** (11/2019 – 09/2020): A microblogging platform using NestJS and Angular, enabling seamless user interaction.
-

Achievements

- Successfully reduced server response time by 30% for client applications through optimized REST API design.
 - Led the development of an LMS platform, scaling to support 5,000+ users, enabling real-time virtual classrooms.
 - Designed backend solutions for productivity apps, resulting in 20% improvement in team collaboration efficiency.
-

Languages

- English: Full Professional Proficiency

Interests

- Emerging Technologies, Teaching, Learning, Travel
